U12A1IP2 INTRODUCTION TO PROGRAMMING-II

Time: 3 Hours | Total: 60 Marks

Instructions:

1. Figures to the right indicate full marks, Course Outcomes and BL Pattern Level.
2. This Question paper has two sections. Each section should be written in a separate answer book.
3. Section-I consist of 07 questions of 6 marks each with options respectively. Section-II consist of 03 questions, Question 2 of 12 Marks, Question 3 of 12 Marks and Question 4 of 6 Marks with options respectively.
4. Be precise and to the point in your answer.
5. CO is Course Outcome from the Subject Syllabus.
6. Bloom's Taxonomy Based Assessment Pattern: BTL1-Remember; BTL2- Understand; BTL3- Apply; BTL4-Analyze; BTL5- Evaluate; BTL6-Create.

Section – I				
Q-1	**Answer the following. (Any 5)**	**Marks 30**	**CO**	**Bloom's Taxonomy**
1	Describe the importance of local variables in user-defined functions and elaborate on the scope limitations that govern their accessibility within the function's boundaries.	06	CO2	BTL4
2	How do you work with arrays in functions in C? Provide an example to illustrate this concept.	06	CO1	BTL2, BTL6
3	Explain the fundamental differences between a structure and a union in C. Provide examples to illustrate these differences.	06	CO3	BTL5, BTL6
4	Discuss the purpose and functionality of dynamic memory allocation functions in C.	06	CO4	BTL3
5	Define the relationship between pointers and arrays in C and illustrate how pointers facilitate accessing elements within arrays.	06	CO1	BTL2, BTL6
6	What are some common programming errors encountered during the coding phase? How can they be prevented or mitigated?	06	CO4	BTL5, BTL2
7	**True or False:** a. In C++, a class can inherit from multiple base classes using multiple inheritance. b. A destructor is called when an object is created. c. Inheritance allows a class to inherit all the properties and methods of another class. d. Inheritance in C++ allows for code reusability but not for code organization. e. Constructors and destructors can be virtual in C++.	06	CO5	BTL1
Section – II				
Q-2	**Answer the following (Any Two)**	**Marks 12**	**CO**	**Bloom's Taxonomy**
1	Define recursion in the context of C functions. Discuss its advantages and potential drawbacks.	06	CO2	BTL3

2	Explore the significance of pointers in character string manipulation within C programming, demonstrating various operations using examples.	06	CO1	
3	Categorize user-defined functions based on their characteristics, such as whether they require arguments or return values.	06	CO2	BT
Q.3	**Answer the following: (Any Two)**	**12**		
1	Investigate the concept of nested structures in C, providing a demonstration through an example.	06	CO3	BTL6
2	Differentiate between static and dynamic memory allocation in C programming.	06	CO4	BTL4
3	Discuss the advantages and limitations of using structures in C programming.	06	CO3	BTL3
Q.4	**Answer the following: (Any One)**	**06**		
1	Describe OOPS Concepts.	06	CO5	BTL4
2	Explain the types of inheritance in C++ with an example.	06	CO5	BTL6

B.Sc. (CA & IT) Sem-II Regular/Remedial April-June 2024

U12A2MA: MULTIMEDIA AND ANIMATION

Time: 3 Hours

Total: 60 Marks

Instructions:

1. Figures to the right indicate full marks, Course Outcomes and BL Pattern Level.
2. This Question paper has two sections. Each section should be written in a separate answer book.
3. Section-I consist of 07 questions of 6 marks each with options respectively. Section-II consist of 03 questions, Question 2 of 12 Marks, Question 3 of 12 Marks and Question 4 of 6 Marks with options respectively.
4. Be precise and to the point in your answer.
5. CO is Course Outcome from the Subject Syllabus.
6. Bloom's Taxonomy Based Assessment Pattern: BTL1-Remember; BTL2-Understand; BTL3- Apply; BTL4-Analyze; BTL5- Evaluate; BTL6-Create.

Section – I				
Q-1	**Answer the following. (Any 5)**	**Marks 30**	**CO**	**Bloom's Taxonomy**
1	Discuss the Toolbox of Photoshop interface in brief.	06	CO1	BTL5
2	State the Difference between Photoshop & Coral Draw.	06	CO1	BTL4
3	Describe elements of Photoshop interface. OR Explain Photoshop interface	06	CO1	BTL5
4	Write a short note on layer and layer mask.	06	CO2	BTL3
5	Explain the different features of video editing software.	06	CO4	BTL3
6	What is CorelDRAW? Discuss the features of CorelDRAW in details.	06	CO3	BTL5
7	Elaborate the Dashboard of Canva Platform in brief.	06	CO5	BTL5
Section – II				
Q-2	**Answer the following (Any Two)**	**Marks 12**	**CO**	**Bloom's Taxonomy**
1	What is color space? Explain types of color space.	06	CO1	BTL3
2	Explain about the Photoshop Work Area?	06	CO2	BTL5
3	Write a short note on HSB (Hue, Saturation and Brightness) or HSL	06	CO2	BTL3
Q.3	**Answer the following: (Any Two)**	**12**		
1	Discuss the CorelDRAW menu bar in brief	06	CO3	BTL5
2	Elaborate the any five CorelDRAW tools with their use.	06	CO3	BTL3
3	Discuss the Canva AI -Magic Studio Features in brief.	06	CO4	BTL3
Q.4	**Answer the following: (Any One)**	**06**		
1	Write steps to create small Video with different features.	06	CO5	BTL6
2	Discuss the features of Canva platform in details.	06	CO5	BTL3

**** End of the Paper ****

GANPAT UNIVERSITY

B.Sc.(CA & IT) Sem-II Regular April-June 2024

U12A3WD2 WEB DESIGNING-II

Time: 3 Hours

Total: 60 Marks

Instructions:

1. Figures to the right indicate full marks, Course Outcomes and BL Pattern Level.
2. This Question paper has two sections. Each section should be written in a separate answer book.
3. Section-I consist of 07 questions of 6 marks each with options respectively. Section-II consist of 03 questions, Question 2 of 12 Marks, Question 3 of 12 Marks and Question 4 of 6 Marks with options respectively.
4. Be precise and to the point in your answer.
5. CO is Course Outcome from the Subject Syllabus.
6. Bloom's Taxonomy Based Assessment Pattern: BTL1-Remember; BTL2-Understand; BTL3- Apply; BTL4-Analyze; BTL5- Evaluate; BTL6-Create.

Section – I

Q-1	Answer the following. (Any Five)	Marks 30	CO	Bloom's Taxonomy
1	Explain the difference between jQuery and JavaScript.	06	CO2	BTL2
2	Analyze the advantages and disadvantages of using Bootstrap for front-end development compared to writing custom CSS.	06	CO4	BTL4
3	Name the types of transformations that can be applied using CSS. Apply CSS transformations to scale a div element to twice its original size.	06	CO3	BTL1, BTL3
4	What is the use of val(), text() and html(). Demonstrate its usage with proper implementation.	06	CO2	BTL1, BTL3
5	Explain the purpose of Bootstrap's nav component and how it helps in organizing navigation menus on a webpage.	06	CO5	BTL2
6	Design a login page and create a JavaScript function that validates a form with two input fields, ensuring that both meet following criteria 1) Username: Required field. 2) Password : Minimum password length	06	CO1	BTL6
7	What is an Ajax? Analyze the contribution of each technology involved in the Ajax development process.	06	CO2	BTL1, BTL4

Section – II				
Q-2	**Answer the following (Any Two)**	**Marks 12**	**CO**	**Bloom Taxonomy**
1	Explain different jQuery effects with example.	06	CO1	BTL2
2	How can one utilize JavaScript to manipulate the HTML DOM?	06	CO1	BTL4
3	Why is it important to encapsulate jQuery code within the document.ready() event?	06	CO2	BTL5
Q.3	**Answer the following: (Any Two)**	**12**		
1	Explain different Bootstrap's typographic classes and how they help in styling textual content on a webpage.	06	CO4	BTL2
2	Describe the Bootstrap grid system and its uses in creating responsive layouts.	06	CO4	BTL2
3	Compare and contrast the features and capabilities of CSS and CSS3.	06	CO3	BTL5
Q.4	**Answer the following: (Any One)**	**06**		
1	How can you utilize the various button classes provided by Bootstrap to create distinct styles of buttons?	06	CO5	BTL3
2	Apply Bootstrap's table classes to create a styled table with alternating row colors.	06	CO5	BTL3

U12A4FA FINANCIAL ACCOUNTING

Time: 3 Hours

Total: 60 Marks

Instructions:

1. Figures to the right indicate full marks, Course Outcomes and BL Pattern Level.
2. This Question paper has two sections. Each section should be written in a separate answer book.
3. Section-I consist of 07 questions of 6 marks each with options respectively. Section-II consist of 03 questions, Question 2 of 12 Marks, Question 3 of 12 Marks and Question 4 of 6 Marks with options respectively.
4. Be precise and to the point in your answer.
5. CO is Course Outcome from the Subject Syllabus.
6. Bloom's Taxonomy Based Assessment Pattern: BTL1-Remember; BTL2-Understand; BTL3- Apply; BTL4-Analyze; BTL5- Evaluate; BTL6-Create.

Section – I				
Q-1	**Answer the following. (Any 5)**	**Marks 30**	**CO**	**Bloom's Taxonomy**
1	Classify the methods of Accounting.	06	CO1	BTL4
2	What is a Subsidiary Book? Discuss types of Subsidiary Books.	06	CO1	BTL2/BTL4
3	Write a short note on Final Account.	06	CO2	BTL5
4	From the following information, calculate i) Gross Profit Ratio ii) Net Profit Ratio Opening Stock 100000 Closing Stock 50000 Total Sales 500000 Sales Return 75000 Gross Profit 300000 Net Profit 90000	06	CO3	BTL5
5	Simplify the Classification of Accounting Ratio.	06	CO3	BTL4
6	Find out the Total Contribution, and Profit in Rs. from the following information: Variable Costs per Unit is Rs.**300** The selling price per Unit is Rs.**450** Fixed costs are Rs.**25000** Total Sales of Units: **500** Units	06	CO4	BTL5
7	**Describe Terms:** i) Daybook ii) Narration iii) Tally	06	CO5	BTL2

Section – II

Q-2	Answer the following (Any Two)	Marks 12	CO	Bloo Taxono
1	What is Accounting? Classify types of accounts with an example.	06	CO1	BTL2/BT
2	From the following transactions prepare the journal of Mr. Mehta a) 2024 May 1: Mr. Mehta has started business with cash Rs.50000 and machinery Rs.20000. b) 2024 May 2: Purchased goods of Rs.5000 by cash. c) 2024 May 3: Sold goods of Rs.3000 to Mr. Patel by cheque. d) 2024 May 4: Paid Interest of Rs.2000. e) 2024 May 5: Open a bank account and deposit 5000 cash to it.	06	CO1	BTL6
3	**Discuss Terms with an example:** **i)** Discount **ii)** Trial Balance **iii)** Balance Sheet	06	CO2	BTL2
Q.3	**Answer the following: (Any Two)**	**12**		
1	Find out the Profit Volume Ratio and Break Even Point from the following information Variable Costs per Unit is Rs. **500** The selling price per Unit is Rs. **750** Fixed costs are Rs. **50000** Total Sales of Units: **200** Units	06	C04	BTL5
2	Demonstrate the Debtors Ratio and Creditors Ratio.	06	CO3	BTL3
3	What is Marginal Costing? Describe the advantage of it.	06	CO3	BTL2/BTL3
Q.4	**Answer the following: (Any One)**	**06**		
1	Apply the step to create and alter the company in Tally.	06	CO5	BTL3
2	What is Voucher? Develop any one Voucher with an example.	06	CO5	BTL2/BTL6

U12A5COA COMPUTER ORGANIZATION AND ARCHITECTURE

Time: 3 Hours | Total: 60 Marks

Instructions:

1. Figures to the right indicate full marks, Course Outcomes and BL Pattern Level.
2. This Question paper has two sections. Each section should be written in a separate answer book.
3. Section-I consist of 07 questions of 6 marks each with options respectively. Section-II consist of 03 questions, Question 2 of 12 Marks, Question 3 of 12 Marks and Question 4 of 6 Marks with options respectively.
4. Be precise and to the point in your answer.
5. CO is Course Outcome from the Subject Syllabus.
6. Bloom's Taxonomy Based Assessment Pattern: BTL1-Remember; BTL2- Understand; BTL3- Apply; BTL4-Analyze; BTL5- Evaluate; BTL6-Create.

Section – I				
Q-1	**Answer the following. (Any 5)**	**Marks 30**	**CO**	**Bloom's Taxonomy**
1	Explain 32bit and 64-bit operating system with its advantages and disadvantages.	06	CO1	BTL2, BTL4
2	Write down steps to install Linux OS using ghost image.	06	CO1	BTL3, BTL6
3	What different tools are used in troubleshooting? Discuss the usage of each in brief.	06	CO2	BTL1, BTL4
4	Describe Boolean Algebra Laws and Rules.	06	CO3	BTL2
5	Differentiate between half adders and full adders.	06	CO4	BTL4
6	Explain how de-multiplexers differ from multiplexers and describe their functionalities.	06	CO4	BTL2, BTL4
7	Describe the role of a microprocessor as the central processing unit (CPU) in a computer system.	06	CO5	BTL5
Section – II				
Q-2	**Answer the following (Any Two)**	**Marks 12**	**CO**	**Bloom's Taxonomy**
1	What is BIOS, and how does it contribute to the booting process?	06	CO1	BTL1, BTL3
2	Discuss the key features of various operating systems.	06	CO1	BTL2
3	Discuss the functionalities of MSCONFIG and GPEDIT in Windows, and how they are used to manage system configuration.	06	CO2	BTL2, BTL4
Q.3	**Answer the following: (Any Two)**	**12**		
1	Explain K-map Method for two, three and four variables.	06	CO3	BTL2
2	Describe De-Morgans's Theorem in detail.	06	CO3	BTL3
3	Explain flip-flops & registers in detail.	06	CO4	BTL2
Q.4	**Answer the following: (Any One)**	**06**		

1	Examine the programming model of the 8085 microprocessor, outlining the functions and roles of its registers within the processor's architecture.	06	CO5	BTL5
2	Explain I/O instructions, arithmetic instructions, logical instructions and branch instructions in Assembly Programming language in brief.	06	O5	BTL4

U12B6CS2: LANGUAGE AND COMMUNICATION SKILLS-II

Total: 60 Marks

Time: 3 Hours

Instructions:

1. Figures to the right indicate full marks, Course Outcomes and BL Pattern Level.
2. This Question paper has two sections. Each section should be written in a separate answer book.
3. Section I consist of 07 questions of 6 marks each with options respectively. Section II consist of 03 questions, Question 2 of 12 Marks, Question 3 of 12 Marks and Question 4 of 6 Marks with options respectively.
4. Be precise and to the point in your answer.
5. CO is the Course Outcome from the Subject Syllabus.
6. Bloom's Taxonomy Based Assessment Pattern: BTL1-Remember; BTL2- Understand; BTL3- Apply; BTL4-Analyze; BTL5- Evaluate; BTL6-Create.

Section – I

		Marks 30	CO	Bloom's Taxonomy
Q-1	**Answer the following. (Any 5)**			
1	Explain the role of prefixes, roots, and suffixes in word formation, providing examples of each.	06	CO2	BTL1,2
2	Define the qualities of an effective speaker and discuss why each quality is important in oral communication. Provide examples to illustrate your points.	06	CO1	BTL2,6
3	Define the term presentation and explain how factors such as content, delivery, visuals, and audience engagement techniques contribute to an impactful presentation.	06	CO3	BTL2,3
4	You are the CR for your B.Sc.(CA&IT) Sem-II program. Write a memo to your classmates informing them about an upcoming guest lecture by a prominent industry expert. Include details such as the date, time, location, and topic of the lecture, as well as any special instructions or requirements.	06	CO4	BTL3,6
5	Analyze the factors that contribute to a successful group discussion. Discuss the importance of preparation, participation, respect for diverse viewpoints, and collaboration in achieving the objectives of the discussion.	06	CO5	BTL1,2
6	Differentiate between classified and display advertisements, providing suitable examples of each.	06	CO4	BTL2,6
7	Explain the following terms with examples: a) Commonly confused pair of words b) Prefixes c) Suffixes	06	CO2	BTL1,3

Section – II

		Marks	CO	Bloom's Taxonomy
Q-2	**Answer the following (Any Two)**	30		
1	**Do as directed:** a) Rewrite the sentence using the second conditional: If she had time, she would go to the temple. b) Use the prefix and make a word: 'Mis' c) Give Synonyms for the word: 'Beautiful' d) Fill in the blank with a single word substitute: The fear of heights is known as _____ . e) Use the suffix and make a word: 'Ful' f) Identify the error and rewrite the sentence: When students reached (a)/ to the class (b)/ the teacher (c)/ had already starting teaching. (d)	06	CO1	BTL1,3
2	**Fill in the blanks with the appropriate options given:** a) Dhruti ___ complete the project by tomorrow. (may/can) b) ___ you help me with this task? (Dare/Ought) c) The team ___ preparing for the upcoming match. (is/are) d) He'll join the picnic ___ he finishes my work early. (if/unless) e) If you touch a hot stove, you get burned. This sentence is an example of a ____ conditional. (first/zero) f) If she had studied harder, she _____ failed the exam. (would not have/could not have)	06	CO1	BTL1,3
3	Write your opinions on any **TWO** topics: a) How can artificial intelligence impact job opportunities in various industries? b) How can we better connect what we know about cybersecurity with our actions? c) How can individuals protect their privacy and data security in an increasingly digital world?	06	CO2	BTL2,4
Q.3	**Answer the following: (Any Two)**	12		
1	Why is audience analysis essential for presentation preparation? Provide examples to illustrate its importance.	06	CO3	BTL2,4
2	Write an email to your professor, requesting an extension on a deadline for CS assignment. Provide a valid reason for your request and suggest a new submission date.	06	CO4	BTL2,6
3	You recently graduated with a degree in computer science and are seeking employment. Write a job application letter to a software development company expressing your interest in a software designer position advertised by them. Outline your qualifications, skills, and enthusiasm for the role.	06	CO4	BTL2,6
Q.4	**Answer the following: (Any One)**	06		
1	Discuss the role of critical thinking in group discussions. Explain how to evaluate information, analyze arguments, and draw reasoned conclusions to contribute meaningfully to the discussion.	06	CO5	BTL2,3
2	What are the prerequisites necessary for conducting an effective group discussion? Explain each prerequisite in detail.	06	CO5	BTL3,6

**** End of the Paper ****
