GANPAT UNIVERSITY
DD-BCA-MCA SEM-III EXAMINATION (CBCS)

U53A1DFS: Data Structure

Time: 3 Hours] Nov - Dec 2022 **[Total Marks: 60**

Instructions:

1. Figures to the right indicate full marks
2. Be precise and to the point in your answer

1. Answer the following: (ANY SIX) **(30)**

A. Explain Non- Primitive data structure.

B. Discuss Non-Linear data structure in detail.

C. Differentiate: Stack v/s Linked List.

D. Describe various types of Queue with example.

E. Write down algo for Deletion in Simple Queue.

F. Explain different representation of Binary tree.

G. Explain the different representation of Graph?

H. Write down algo for sequential Search

2 Answer the following: (ANY ONE) **5**

A. Describe Primitive data structure.

B. Write a short note on Linear data structure

3 Answer the following:(ANY TWO) **10**

A. Write down algo for Stack push and Pop operation.

B. Explain all types of linked list with example.

C. Write down algo for Insertion in Circular Queue.

4 Answer the following: (ANY TWO) **10**

A. Describe terminology of Tree Data Structure.

B. Write down algo for In-order tree Traversal.

C. What is Graph? Explain terminology of Graph.

5 Answer the following: (ANY ONE) **5**

A. Write down algo for Selection sort.

B. Write down algo for Binary search.

DD(BCA-MCA) SEM-III EXAMINATION

U53A2DT1: APPLICATION DEVELOPMENT TOOL-I

Time: 3 Hours] - Nov - Dec 2022 **[Total Marks: 60**

Instructions:

1. Figures to the right indicate full marks
2. Be precise and to the point in your answer

1. Answer the following (Attempt any Six) **(30)**

[A] Briefly explain about i) Cycle Time, ii) Lead Time.

[B] List out ERP Myths and explain any three of them

[C] Write a short note on features of Python.

[D] Explain Arithmetic and Logical Operators of python.

[E] Explain python List and its methods with appropriate example

[F] Explain '__init__' special method with suitable example.

[G] What is Inheritance? Explain How to inherit a class with example.

[H] Write a short note on Odoo Directory Structure

2. Answer the following (Attempt any One) **(06)**

[A] List out Common Functional Modules of ERP software and explain any two of them.

[B] Write short note on sub-system of HR Module.

3. Answer the following (Attempt any One) **(06)**

[A] Explain use of 'Break' and 'Continue' statements with suitable example

[B] Explain Python looping statements with example.

4. Answer the following (Attempt any One) **(06)**

[A] What is Dictionary in python programming? Explain it with example.

[B] Write a short note on python Exception Handling.

5. Answer the following (Attempt any One) **(06)**

[A] What is Quotation? Explain various payment terms used in Quotations.

[B] Which are the Structure tools used in design of website in odoo. Briefly explain any two of them.

6. Answer the following (Attempt any One) **(06)**

[A] Write a short note on 'Tree Views and Form Views' used in odoo app development.

[B] Explain One2Many, Many2One and Many2Many relationship of odoo models.

DD-BCA-MCA SEM-III EXAMINATION

Nov - Dec 2022

U53A3DM2: Database Management System-II

[Time: 3 Hours] **[Total Marks: 60]**

Instructions:

1. Figures to the right indicate full marks
2. Be precise and to the point in your answer

1. **Answer the following: (ANY SIX OUT OF EIGHT)** **(30)**

A. Define SGA. Explain the components of SGA.

B. Differentiate: SYSTEM table space. v/s SYSAUX table space.

C. Describe storage structure of database with different five files used for physical storage structure.

D. Explain the process of storing data into table.

E. What is Trigger? Discuss it with proper example.

F. Discuss Management Framework in detail.

G. Explain exception handling in PL/SQL

H. Explain if…else with example

2. **Answer the following: (ANY 2)** **(8)**

A. Explain Logical Storage Structure of the database with the use of Tablespaces, Segments, Extents and Data Blocks.

B. Explain any four actions with table space with usability.

C. Write a short note on grid computing.

3. **Answer the following:** **(2)**

A. Which command is used to starting and stopping database control?

4. **Answer the following: (ANY 2)** **(10)**

A. Explain any four table spaces in preconfigured databases in detail.

B. Write a note on space management in detail

C. Discuss anatomy of data block.

5. **Answer the following: (ANY 2)** **(10)**

A. What is cursor? Explain various types of cursor with example.

B. Explain procedure with suitable example.

C. Explain PL/SQL Block structure.

U53A4OS1- Operating System - I

Time: 3 Hours] Nov - Dec 2022 **[Total Marks: 60**

Instructions:

1. Figures to the right indicate full marks
2. Be precise and to the point in your answer

1. Answer the following: (ANY SIX) (30)

A. What is operating system? Explain OS structure in detail.

B. List out and explain types of Schedulers in detail.

C. Explain Critical Section Problem with characteristics.

D. Explain Interprocess Communication in detail.

E. What is Deadlock? Explain with characteristics

F. Explain fixed and variable size partitioning with example.

G. Explain FIFO page replacement in detail.

H. Differentiate Logical and Physical Address.

2. A Answer the following: (ANY TWO) (10)

I. List out types of Operating System. Explain any two in detail.

II. Explain Process States in detail

III List out types of Scheduling algorithms. Explain any one with example.

B What is PCB? **(2)**

3. A Answer the following: (ANY TWO) (10)

I. List out Classical Problems in Synchronization. Explain any one with example.

II. Explain Cooperating and Pre emptive process in detail.

III. What is Semaphore? Explain with different types of Semaphore.

DD (BCA-MCA) SEM-III Regular

Nov – Dec 2022

U53A5ACN – Advanced Computer Networks **Total Marks: 60**

Instructions:

1. Attempt all questions.
2. Make suitable assumptions whenever necessary.
3. Figures to the right indicate full marks.

Q.1 Attempt any Six: **30**

1) Describe half duplex vs full duplex communication.
2) Write a note on coaxial cable with its merits.
3) Discuss connection oriented vs connection less services.
4) Explain any one routing method.
5) Describe ISL protocol.
6) Discuss various Ethernet cabling in brief.
7) Discuss static vs dynamic VLAN.
8) Discuss substitution cipher and transposition cipher.

Q.2 Attempt the following: **06**

1) Describe OSI vs TCP/IP network model in brief.

OR

1) Discuss radio and microwave transmission media with their applications.

Q.3 Attempt the following: **06**

1) What is multiplexing? Explain any one with its application.

OR

1) Describe circuit switching vs packet switching.

Q.4 Attempt the following: **10**

1) Discuss Ethernet networking at physical layer.
2) Discuss VLAN identification methods in brief.

OR

1) Explain Cisco three layer hierarchical model in detail.

Q.5 Attempt the following: **08**

1) What is DNS? How it works? Explain with a suitable example.
2) Discuss cryptographic attack.

OR

1) Write a note on cryptography.
