GANPAT UNNIVERSITY
M.Sc. IT (IMS) SEM – II REGULAR EXAMINATION
P42A3AMOS – ADVANCED MICROSOFT SERVER OPERATING SYSTEM

April - June 2022

TIME: 3 Hrs.] **[Total Marks: 30**

Instructions:

1. Figures to the right indicate full marks
2. Be precise and to the point in your answer

Q-1. Answer the following Questions. (Any Five) **(15)**

1. What is computer network? Explain the types of computer network with example?
2. Write a short note on FTP?
3. Describe the difference between Windows Server 2019 Essential and Standard Edition?
4. Describe the process to Create and set up a virtual machine using Hyper-V.
5. Describe types of scope in Group Policy?
6. Write a short note on DFS Replication.
7. What is ADRMS? Explain in brief.

Q-2. Answer the following Questions. (Any One) **(04)**

1. Write a short note on PowerShell.
2. List out the roles of Windows Server 2019.

Q-3. Answer the following Questions. (Any One) **(04)**

1. What is DNS? Explain the Hierarchy of DNS with detail.
2. Describe the process to implement DNS in client side.

Q-4. Answer the following Questions. (Any One) **(04)**

1. Describe the class and types of IP address.
2. Explain the use Virtual Networks in Hyper-V.

Q-5. Answer the following Questions. (Any One) **(03)**

1. Write a short note on DFS.
2. What is a file system? Explain in brief.

M.Sc. IT (IMS) SEM – II REGULAR EXAMINATION
P42A1MEN – MANAGING ENTERPRISE NETWORK

April - June 2022

TIME: 3 Hrs.] **[Total Marks: 30**

Instructions:

1. Figures to the right indicate full marks
2. Be precise and to the point in your answer

Q-1. Answer the following Questions. (Any Five) **(15)**

1. Define the keywords: DR, BDR.
2. What is EIGRP? Describe the principles of EIGRP?
3. Difference between IPv4 and IPv6?
4. Explain Redistribution in RIP Protocol?
5. What is IPv6? Explain the features of IPv6.
6. Write a short note on STP protocol.
7. Define the keyword: hop count, Autonomous system.

Q-2. Answer the following Questions. (Any One) **(04)**

1. Write a short note on EIGRP Metrics.
2. Explain types of packet in EIGRP?

Q-3. Answer the following Questions. (Any One) **(04)**

1. Explain BGP Peer Message?
2. Describe the command of BGP Summarization?

Q-4. Answer the following Questions. (Any One) **(04)**

1. What is routing metrics? Explain the use of Routing Metrics?
2. Explain Redistributing in EIGRP Protocol?

Q-5. Answer the following Questions. (Any One) **(03)**

1. Describe VTP Protocol in detail?
2. Write a short note on VRRP?

M.Sc.IT (IMS) SEM – II REGULAR EXAMINATION (CBCS)

P42A4EL2: ELECTIVE- II (CONCEPTS OF OPEN SOURCE SCRIPTING LANGUAGES)

April - June 2022

TIME: 3 Hrs.] **[Total Marks : 30**

Instructions:

1. Figures to the right indicate full marks
2. Be precise and to the point in your answer

Q-1. Answer the following Questions. (Any Five) **(15)**

1. Explain the <image> with its proper example.
2. Discuss the <OL> with proper example.
3. Explain the string method in JavaScript.
4. Explain the conditional statements in java scripts
5. Explain the Constrains in MYSQL.
6. Explain the DDL statements in MYSQL.
7. Write a short note on PHP Variable.

Q-2. Answer the following Questions. (Any One) **(04)**

1. Write a short note on URL with its common schemes.
2. Explain the <marquee> with its attribute and values.

Q-3. Answer the following Questions. (Any One) **(04)**

1. Write a short note on java script with its type.
2. Explain the for…. Loop with proper example in java script

Q-4. Answer the following Questions. (Any One) **(03)**

1. Explain the DML commands in MySQL.
2. Explain the difference between primary key and unique key.

Q-5. Answer the following Questions. (Any One) **(04)**

1. Explain the For… loop with proper example in PHP.
2. Explain the Basic Mathematical Operator in PHP.

P42A2IOT – INTRODUCTION TO INTERNET OF THINGS

April - June 2022

TIME: 3 Hrs.] **[Total Marks: 30**

Instructions:

1. Figures to the right indicate full marks
2. Be precise and to the point in your answer

Q-1. Answer the following Questions. (Any Five) **(15)**

1. What is IoT? Explain in brief.
2. Explain the characteristics of IoT in brief.
3. Write a short note on IoT enabling Technologies.
4. What is home automation in IoT? Explain in brief.
5. Write a short note on Python Data Structure.
6. Describe the IoT applications in smart health and life style.
7. Describe the components of IoT.

Q-2. Answer the following Questions. (Any One) **(04)**

1. What is date and time operations in Python? Explain.
2. Describe the functions of Python.

Q-3. Answer the following Questions. (Any One) **(04)**

1. Write a short note on Network Layer of IoT.
2. Describe the Functional Blocks of IoT in brief.

Q-4. Answer the following Questions. (Any One) **(04)**

1. Write a short note on smart energy system.
2. Explain IoT applications in smart retail systems.

Q-5. Answer the following Questions. (Any One) **(03)**

1. Explain building blocks of an IoT device.
2. Write a short note on IoT design methodology.

M.Sc.IT(IMS) SEM-II EXAMINATION (CBCS)

P42A5IWT1 - INTRODUCTION TO WIRELESS TECHNOLOGY WITH 5G NETWORK

Time: 3 Hours] **[Total Marks: 30**

Instructions:

1. Figures to the right indicate full marks
2. Be precise and to the point in your answer

1. Answer the following: (Any Five) **(15)**

A) Explain 802.11 Architecture with proper figure

B) Describe MIMO in detail.

C) Write note on 5G network and its works.

D) Explain 5G data drivers.

E) Explain the process of download link of NOMA in a single cell.

F) Describe the security features of 5G

G) Discuss in brief: How to enhance security for 5G?

2. Answer the following: (Any One) **(04)**

A) Explain 802.11 wireless standards.

B) Explain Wireless channel path types and its characteristics.

3. Answer the following: (Any One) **(04)**

A) Discuss Architecture of 5G .

B) Write short note on Radio Access Network.

4. Answer the following: (Any One) **(04)**

A) What is OFDM? Describe in brief.

B) Write a short note on mobile backhaul network.

5. Answer the following: (Any One) (03)

A) What is QoS? Explain the QoS model in brief

B) Discuss the Network Security Leveraging SDN with logical planes.
