M.Sc. IT (IMS) SEM – II REGULAR EXAMINATION (CBCS)

P42A4EL2: Elective II – (Concepts of open source scripting Languages)

April - June 2023

TIME: 3 Hrs.] [Total Marks : 30

Instructions:

1. Figures to the right indicate full marks
2. Be precise and to the point in your answer

Q-1. Answer the following Questions. (Any Five) **(15)**

1. Explain the TAG, ATTRIBUTE and VALUE with proper example.
2. Explain the DDL statements in MYSQL.
3. Write a short note on PHP.
4. Write a short note on URL with its common schemes.
5. Explain the for…. Loop with proper example in java script
6. What is variable? Explain the rules of variable declaration with example.
7. Write a short note on java script with its type.

Q-2. Answer the following Questions. (Any One) **(04)**

1 Explain the <marquee> with its attribute and values.

2 Explain the un-order list with proper attribute and example.

Q-3. Answer the following Questions. (Any One) **(04)**

1 Explain the while…. lop in java script.

2 What are conditional statements in JS? Explain any one.

Q- 4. Answer the following Questions. (Any One) **(04)**

1 Explain the for…loop detail in PHP with proper example.

2 Explain the Basic Structure of PHP with one simple example

Q- 5. Answer the following Questions. (Any One) **(03)**

1 Explain the DML commands in MySQL.

2 Explain the Constrains in MYSQL.

M.Sc. IT (IMS) SEM – II REGULAR EXAMINATION
P42A3AMOS – ADVANCED MICROSOFT SERVER OPERATING SYSTEM

TIME: 3 Hrs.] **April - June 2023** **[Total Marks: 30**

Instructions:

1. Figures to the right indicate full marks
2. Be precise and to the point in your answer

Q-1. Answer the following Questions. (Any Five) **(15)**

1. Describe the working of DNS in Windows Server 2019.
2. Explain ADRMS in brief.
3. Write a short note on Group policy object.
4. What is Network Load Balancer? Explain in brief.
5. State the DORA process in brief.
6. What is IPv4? Explain the classes of IPv4.
7. Write a short note on PowerShell.

Q-2. Answer the following Questions. (Any One) **(04)**

1. State the difference between Windows Server 2019 Essential and Standard Edition.
2. List out the roles of Windows Server 2019.

Q-3. Answer the following Questions. (Any One) **(04)**

1. What is zone in DNS? Explain the types of zones in DNS.
2. Describe the features of DHCP.

Q-4. Answer the following Questions. (Any One) **(04)**

1. Write down the steps to create and set up a virtual machine in Hyper-V.
2. Explain the prerequisites for installing Hyper-V.

Q-5. Answer the following Questions. (Any One) **(03)**

1. Write a short note on DFS?
2. Explain WDS in brief.

P42A2IOT – INTRODUCTION TO INTERNET OF THINGS
April - June 2023

TIME: 3 Hrs.] [Total Marks:30

Instructions:

1. Figures to the right indicate full marks
2. Be precise and to the point in your answer

Q-1. Answer the following Questions. (Any Five) **(15)**

1. What is IoT? Explain the characteristics of IoT in brief.
2. Describe IoT based smart logistic system in brief.
3. What is the class in Python? Explain in brief.
4. Write down the full forms of the following terms: HTTP, CoAP, MQTT, DDS.
5. Explain Functional Blocks of IoT in brief.
6. Write a short note on building blocks of an IoT device.
7. Explain the IoT applications in smart health and life style.

Q-2. Answer the following Questions. (Any One) **(04)**

1. Explain the date and time operations in Python.
2. Write a short note on Python Data Structure.

Q-3. Answer the following Questions. (Any One) **(04)**

1. Explain the components of IoT.
2. Write a short note on Network Layer of IoT.

Q-4. Answer the following Questions. (Any One) **(04)**

1. Describe the IoT applications for Smart Home.
2. Explain the difference between IoT and M2M.

Q-5. Answer the following Questions. (Any One) **(03)**

1. Write a short note on Raspberry Pi.
2. State IoT design methodology in brief.

P42AIMEN: MANAGING ENTERPRISE NETWORK

TIME : 3 Hrs.] [Total Marks : 30

Instructions:

1. Figures to the right indicate full marks
2. Be precise and to the point in your answer

Q1. Answer the following Questions. (Any Five) (15)

1. What is EIGRP? Describe hybrid characteristics of it.
2. Define these terminologies: Hello Packets, Update Packets, Query Packets
3. Explain the core features of IPv6 and naming convention of IPv6.
4. Give the true or false of following statements:
   A. BGP is a standardized exterior gateway protocol.
   B. BGP is considered a "Path Vector" routing protocol.
   C. AD for iBGP and locally-originated routes is 200.
   D. The Administrative Distance for eBGP routes is 20.
5. Define these keywords: HSRP, VRRP, GLBP
6. Describe these keywords: Distance Vector Routing, Route Redistribution, Link State Routing
7. Give the full form of these keywords: DR, BDR, ABR, LSA, DUAL, CIDR

Q2. Answer the following Questions. (Any One) (04)

1. Describe K values and metric formula in EIGRP.
2. Explain OSPF routing protocol in details.

Q3. Answer the following Questions. (Any One) **(04)**

1. Give the difference between IPv4 vs IPv6
2. Describe the differences between OSPFv2 and OSPFv3.

Q4. Answer the following Questions. (Any One) **(04)**

1. Why use Route Redistribution? Explain disadvantages to route redistribution.
2. List out the various commands to verify route redistribution

Q5. Answer the following Questions. (Any One) **(03)**

1. Define these keywords: VLAN, VTP
2. Describe Spanning Tree Protocol in brief.

P42A5IWT1 - INTRODUCTION TO WIRELESS TECHNOLOGY WITH 5G NETWORK

Time: 3 Hours] **[Total Marks: 30**

Instructions:

1. Figures to the right indicate full marks
2. Be precise and to the point in your answer

1. Answer the following: (Any Five) **(15)**

A) Explain TDMA with its advantages and disadvantages.

B) Explain MIMO and importance of MIMO for users

C) Draw building block of 5G roadmap and explain any 2 in detail.

D) Explain 5G data drivers.

E) Write note on OFDM .

F) Explain QoS model in brief.

G) Describe the security features of 5G.

2. Answer the following: (Any One) **(04)**

A) Explain 802.11 Architecture and its components with proper figure.

B) Explain Wireless channel path types and its characteristics.

3. Answer the following: (Any One) **(04)**

A) Discuss 5G network and its works.

B) Write note on network slicing.

4. Answer the following: (Any One) **(04)**

A) What is GFDM? Describe in brief.

B) Explain the process of download link of NOMA in a single cell.

5. Answer the following: (Any One) **(03)**

A) How to enhance security for 5G.

B) Discuss the Network Security Leveraging NFV with logical planes
