## M.Sc. IT (Cyber Security) SEM-III EXAMINATION

### P73A3NF : Network Forensic

**Time: 3 Hours]** **[Total Marks: 60**

**Instructions:**

1. Figures to the right indicate full marks
2. Each section should be written in a separate answer book
3. Be precise and to the point in your answer

### SECTION-I

**1.** **Answer the following: (Any Five)** **(30)**

1. Compare computer forensics and network forensics.
2. What are the challenges in wireless network forensics?
3. What is the difference between digital forensics and network forensics?
4. Write any three techniques used for carrying out investigation?
5. Briefly describe the distributed systems-based frameworks.
6. What is dynamical network forensics? How is it implemented? What is the role of forensic agent in it?
7. Explain Kismet in brief.

### SECTION-II

**2.** **Answer the following: (Any Two)** **(12)**

1. What are the various phases in multi-tier and hierarchical process model?
2. Which are the recent trends in network forensic?
3. What are the various classifications of network forensics?

**3.** **Answer the following: (Any Two)** **(12)**

1. Write a detailed note on sources of investigation and tools for data collection in digital investigation process model.
2. Discuss merits and demerits of any three network monitoring tools.
3. Discuss merits and demerits of Wireshark.

**4.** **Answer the following: (Any One)** **(06)**

1. Compare the similarities and differences in Netflow and IPFIX.
2. Discuss Internet Protocol Flow Information Export (IPFIX) Format

**END OF PAPER**

## M.Sc. IT (Cyber Security) SEM-III Examination (CBCS)

### P73B5ISC-Information Security Compliance Management

### Nov-Dec-2019

**Time : 3-Hours]** **[Total Marks : 60**

| | | |
|---|---|---|
| | **Section - I** | |
| **Q-1** | **Answer the following (Attempt any Five)** | **(30)** |
| 1. | What does HIPAA stands for? What are the four main purposes of HIPAA? | |
| 2. | Discuss various types of IPR in detail. | |
| 3. | What is the purpose behind development of ISO 27001? Discuss a planning process of ISO 27001 specification in detail. | |
| 4. | Discuss organizational responsibilities for monitoring and maintaining ISMS. | |
| 5. | What is information security? Describe several schemes used for levels of information classification with example. | |
| 6. | Define various approaches to determine the context of your organization ISMS in relation to ISO 27001. | |
| 7. | Discuss HIPAA rules and regulations. | |
| | | |
| | **Section - II** | |
| **Q-2** | **Answer the following (Attempt any Two)** | **(12)** |
| 1. | Discuss ISMS security objectives. | |
| 2. | What is information risk management? Discuss Key elements of the ISO 27001 risk assessment procedure. | |
| 3. | What is information security policy? Discuss various components of any security policy. | |
| | | |
| **Q-3** | **Answer the following (Attempt any Two)** | **(12)** |
| 1. | Discuss various objectives of PCI-DSS. | |
| 2. | Justify statement organization should conduct internal ISMS audits at planned intervals. | |
| 3. | Discuss Communications and operations security management in detail. | |
| | | |
| **Q-4** | What is information ethics? Define need for ethics in information security, | **(06)** |
| | OR | |
| **Q-4** | Discuss various IPR in India. | **(06)** |

## M.Sc. IT(Cyber Security) SEM-III EXAMINATION

## P73A1MTA: Malware Taxonomy and Analysis

**Time: 3 Hours**

**Total Marks: 60**

**Instructions:**

1. Figures to the right indicate full marks
2. Each section should be written in a separate answer book
3. Be precise and to the point in your answer

### SECTION-I

**1.** **Answer the following: (Any Five)** **(30)**

1. What is Snapshot? What are Pros and Cons of taking Snapshot during Malware Analysis Process?
2. What do you mean by Persistence Mechanism? Discuss different Methods to achieve persistence behavior.
3. Write a short note on Process Explorer.
4. Write a note on Inetsim and Wireshark.
5. Write a note on Sandbox? Also mention Pros and Cons of using Sandbox for Malware Analysis? Give at least 3 examples of Sandbox.
6. Provide Difference between Static, Runtime and Dynamic Linking.
7. Discuss goals for malware analysis and thumb rules for malware analysis.

### SECTION-II

**2.** **Answer the following: (Any Two)** **(12)**

1. Discuss about the PE Header in detail. Also discuss about most common types of sections (At least 4 section).
2. What do you understand by term Malware? Discuss about various types of Malware (At least 8 different types)?
3. Discuss different tools and its purpose used in Malware Analysis Process.

## P73A2MDS : MOBILE DEVICE SECURITY AND FORENSIC

**Time: 3 Hours]** **[Total Marks: 60**

**Instructions:**

1. Figures to the right indicate full marks
2. Each section should be written in a separate answer book
3. Be precise and to the point in your answer

### SECTION-I

**1.** **Answer the following: (Any Five)** **(30)**

1. How android o/s works? Explain its architecture.
2. Describe any five control of android.
3. How Burp suite works? Describe in detail.
4. Describe android startup process.
5. What is Content Provider Leakage? How to identify it?
6. Which are possible ways to extract sensitive files with packet capture?
7. Describe the types of forensic in detail.

### SECTION-II

**2.** **Answer the following: (Any Two)** **(12)**

1. What is an Activity? Describe its lifecycle.
2. What is the use of Android Manifest file? Define with example.
3. Describe Android Debug Bridge (ADB) in detail.

**3.** **Answer the following: (Any Two)** **(12)**

1. How APKTool works to reverse an android application?
2. What is passive analysis?
3. Define HTTPS Proxy interception.

**4.** **Answer the following: (Any One)** **(06)**

1. Explain android filesystem partition.
2. How to logging the logcat?

**END OF PAPER**
