GANPAT UNIVERSITY

B.Sc. (IT) SEM-V EXAMINATION

Nov - Dec 2022 Regular

U25A1WPF: (ELECTIVE-II) WEB PROGRAMMING FRAMEWORK

[Time: 3 Hours] **[Total Marks: 60]**

Instructions:

1. Figures to the right indicate full marks
2. Be precise and to the point in your answer

1. Answer the following: (ANY SIX OUT OF EIGHT) (30)

A. What is Magento? Write down the complete installation steps to install Magento in your local machine.

B. List out and explain any 4 menu options available in sidebar of the admin store panel.

C. Explain configurable product with example in Magento.

D. How to configure Cart Price Rules? Explain it with suitable example.

E. Explain Free shipping and Flat rate shipping method in detail.

F. Explain Check / Money Order and Bank Transfer Payment methods in Magento.

G. Discuss Sales Reports and Review Reports in brief.

H. Explain Content Blocks and Widgets in Magento.

2. Answer the following: (ANY TWO) (08)

A. Discuss the Customer Journey for any ecommerce website.

B. Explain Website, Store and Store View in brief with diagram.

C. Define the terms: Admin dashboard, Logo, Favicon, Store Demo Notice.

3. Answer the following: (ANY TWO) (08)

A. Differentiate the Bundle Product and Group Products in Magento.

B. Explain Up-sell, Cross-sell and Related products in Magento.

C. Discuss the Inventory Management in Magento.

4. **Answer the following: (ANY TWO)** **(07)**

A. Explain Table Rate shipping methods in detail.

B. Write a short not on Orders and Invoices management by Admin in Magento.

C. Explain Zero Subtotal Checkout payment method in Magento.

5. **Answer the following: (ANY TWO)** **(07)**

A. Write a short note on Theme in Magento.

B. Explain Page Setup and Page Layouts in Magento.

C. Write a short not on Manage Customer and Customer Groups in Magento.

B.Sc.(IT) - Sem-V EXAMINATION (CBCS)

U25A2IML – Introduction to Machine Learning

[Time: 3 Hours] Nov - Dec 2022 Regular [Total Marks: 60]

Instructions:

1. Figures to the right indicate full marks.
2. Be precise and to the point in your answer.

Q-1. Explain the following terms : (Any Six) **(30)**

I. Data Mining

II. Data Manipulation

III. Data visualization

IV. AI

V. ML

VI. Data Frame

VII. RE

VIII. Application of ML

Q-2. Answer the following: (Any Two) **(10)**

I. Briefly explain file handling in python with open(), close(), write()and readLines() , isfile(), seek(), tell() example.

II. What is Regular Expression? Explain Sequence character of Regular Expression using example.

III. How to handle binary files in python?

Q3. Answer the following: (Any Two) **(05)**

I. How to create data frame using Pandas?

II. Explain the process of data cleansing using suitable example.

III. Discuss various Operations, sorting and indexing on the Data Frame.

Q-4. Answer the following: (Any Two) **(05)**

I Write down in detail why AI is required? Write down applications of AI.

II Write down types or categories of Machine Learning.

III What is NN? Explain architecture of NN in detail.

Q5. Answer the following: (Any Two) **(10)**

I Explain Decision Tree mining algorithm in details.

II Explain SVM in details.

III Explain clustering in details.

U25A3 OPS: Operating System

Time: 3 Hours] **[Total Marks: 60**

Instructions:

1. Figures to the right indicate full marks
2. Be precise and to the point in your answer

Q-1. Answer the following: (Any Six) **(30)**

I. Explain five state process diagram in detail.

II. Define fragmentation. Explain types of fragmentation in detail.

III. What is deadlock? Explain deadlock prevention schemes.

IV. Explain Memory Management in Linux.

V. Explain Looping statements in shell scripts.

VI. Write a short note on real time processing and batch processing.

VII. Briefly explain Virtual Memory.

VIII. Explain Break and Continue command with example in shell script.

Q-2. Answer the following: (Any Two) **(08)**

I. What is Operating System? Explain the functions of Operating System.

II. What is PCB? Explain each part of PCB in detail.

III. Explain Monolithic Structure of Operating Systems.

Q-3. Answer the following: (Any One) **(06)**

I. What is Fixed Partition? Explain Multiprogramming with fixed Partitioning technique.

II. Enlist the page replacement algorithms and explain FIFO, LRU algorithms.

Q-4 Answer the following: (Any One) **(06)**

I Explain Characterization of Deadlock in detail.

II What is critical section? Write down implementation of two process algorithm.

Q-5. Discuss following commands with attributes/parameters. (Any five) **(10)**

1. chmod 2. grep 3. man 4. cp
5. pwd 6. paste 7. bc 8. mv

U25A4STQ: SOFTWARE TESTING & QUALITY ASSURANCE

Nov - Dec 2022

[Time: 3 Hours] **[Total Marks: 60]**

Instructions:

1. Figures to the right indicate full marks
2. Be precise and to the point in your answer

Q-1. Answer the following: (Any Six) **(30)**

I. Explain importance of software testing.

II. Explain black box testing techniques with example.

III. Discuss V model with diagram in brief.

IV. Describe field level validation and inter-field dependencies in brief.

V. Explain performance and load testing in brief.

VI. Describe various types of ambiguity in detail.

VII. Discuss usability and exploratory testing in brief.

VIII. Explain risk based testing in brief.

Q-2. Answer the following: (Any One) **(04)**

I. Write a short note on levels of software testing.

II. Explain verification and validation in brief.

Q-3. Answer the following: (Any Two) **(10)**

I. Differentiate between desk checking, walkthrough and inspection.

II. Discuss white box testing in details.

III. Explain state transition technique with example.

Q-4. Answer the following: (Any Two) **(08)**

I. What is testing? Discuss system testing in detail.

II. Explain functional and non-functional testing in brief.

III. Write a note on regression testing.

Q-5. Answer the following: (Any One) **(05)**

I. Explain test case design in depth.

II. Discuss defect management tools in brief.

Q-6. Answer the following: (Any One) **(03)**

I. Explain test design coverage in brief.

II. Discuss test automation process in details.

Nov - Dec 2022 Regular
U25A5SAD: SYSTEM ANALYSIS AND DESIGN

Time: 3 Hours] **[Total Marks: 60**

Instructions:
1. Figures to the right indicate full marks
2. Be precise and to the point in your answer

1. **Answer the following: (ANY SIX)** **(30)**

A. Explain the characteristics of system.

B. List out Roles of system analyst. Explain in brief.

C. Discuss the types of user in brief.

D. Write a short note on Decision Tree.

E. Explain file organization methods in brief.

F. Explain Post implementation Review in brief.

G. Explain conversion in details.

H. Which are testing techniques available? Explain in detail.

2. **Answer the following: (ANY ONE)** **(05)**

A. Write a short note on types of system.

B. Explain System Development Life Cycle (SDLC).

3. **Answer the following: (ANY ONE)** **(05)**

A. List out Fact finding techniques. Explain any two in detail.

B. Difference between the Physical And Logical DFD.

4. **Answer the following: (ANY ONE)** **(06)**

A. Discuss the Code design in brief.

B. Write a short note on Input design.

5. **Answer the following: (ANY ONE)** **(07)**

A. Discuss Level Of Testing.

B. Discuss benefits of computer assisted tools.

6. **Answer the following: (ANY ONE)** **(07)**

A. Draw a DFD for Library Management System.

B. Draw a DFD for Inventory Management System.
