Exam No: _____

GANPAT UNIVERSITY

M.Sc.(IT) Semester-II Regular Examination, April - June 2022

P42A4AAD Android Application Development

TIME: 3 HRS

TOTAL MARKS: 60

Q-1 Attempt the followings. (Any Six) **30**

(I) Why Activity is required in Android? How activities are implemented? Demonstrate using proper code and explanation. **5**

(II) Why Android is so popular? Justify its popularity features wise. **5**

(III) Explain history of android in details. **5**

(IV) Why layout is required in Android? Illustrate relative layout with suitable example. **5**

(V) Why adapter is required in Listview? Demonstrate with proper example. **5**

(VI) What is UI control? Explain any two controls with suitable example. **5**

(VII) Is there any Built-in SMS application or API available to send SMS? If yes then Write down the application code for sending the SMS. **5**

(VIII) What is dialog? Show how to use alert dialog with proper code. **5**

Q-2 Answer the followings. **10**

(A) Explain the architecture of android in detail. **5**

(B) Why we need to control Android Activity Life Cycle? List out all life cycle methods of Android Activity. Describe any two methods of your choice in brief. **5**

Q-3 What is listener? Why listener is required in android? Explain the OnClick listener with suitable example. **6**

Q-4 What is fragment? Why fragment is required to be reused for common UI space? Explain fragment in detail with proper example. **6**

Q-5 Do as directed. **8**

(A) What is SQLite? Explain the types of methods with proper example. **4**

(B) Does Android use file system to store data of App? How many alternatives the Android system provides to you to save your app data? Illustrate in brief. **4**

P42A2WD2: Web Designing - II

April - June 2022

Time: 3 Hours] **[Total Marks: 60**

Instructions:

1. Figures to the right indicate full marks
2. Be precise and to the point in your answer

1. **Answer the following: (ANY SIX)** **(30)**

A. Discuss AngularJS Array with appropriate example.

B. What is AngularJS Module? Explain how to create a Module?

C. Explain AngularJS Form Validation with appropriate example.

D. Write a short note on Animate in HTML element.

E. **Differentiate:** One-way binding **v/s** two-way binding.

F. Explain controller with suitable example.

G. Write a short note on **$http** and **$timeout**.

H. Discuss the HTML DOM in brief.

2. **Answer the following: (ANY TWO)** **(07)**

A. Explain MVC architecture of AngularJS with appropriate example.

B. Discuss the AngularJS Object with suitable example.

C. What is Data Binding in AngularJS? Explain with appropriate example.

3. **Answer the following: (ANY TWO)** **(07)**

A. Explain root scope with the example.

B. Explain AngularJS expressions:**(i)** numbers **(ii)** strings

C. Write a short note on **ng-app** in depth.

4. **Answer the following: (ANY TWO)** **(08)**

A. Explain built-in AngularJS filters with suitable examples.

B. Discuss the Events: **ng-Click** and **Mouse**.

C. Write a short note on AngularJS $event object.

5. **Answer the following: (ANY TWO)** **(08)**

A. How can you integrate AngularJS with HTML?

B. Discuss AngularJS CSS in brief.

C. What is Routing in Angular JS? Explain it with appropriate example.

P42A4DAV: DATA ANALYSIS AND VISUALIZATION

Time: 3 Hours] April - June 2022 **[Total Marks: 60**

Instructions:

1. Figures to the right indicate full marks
2. Be precise and to the point in your answer

1. Answer the following: (ANY SIX OUT OF EIGHT) **(30)**

A. What is MongoDB? Discuss the advantages of MongoDB.

B. What is NoSQL? Discuss the use of NoSQL in Industry

C. Discuss aggregate() in MongoDB with example in details.

D. How to Create and Drop Database and Collection in MongoDB

E. Explain Relationships in MongoDB.

F. Explain MapReduce in MongoDB.

G. Explain Column and Bar Charts in MongoDB.

H. Discuss Text Charts in MongoDB.

2. Answer the following: (ANY ONE) **(06)**

A. Explain the types of NoSQL databases in detail.

B. Explain MongoDB Query Language in detail.

3. Answer the following: (ANY TWO) **(08)**

A. Explain the use of pretty(), limit(), sort(), ensureIndex() in MongoDB.

B. Explain Insert, Update and Delete Document in MongoDB with example.

C. Define the terms: Database, Collection, Document, ObjectID

4. Answer the following: (ANY TWO) **(08)**

A. Explain Regular Expression with example in MongoDB.

B. Explain Covered Queries with example in MongoDB.

C. Explain Text Search with example in MongoDB.

5. Answer the following: (ANY TWO) **(08)**

A. Discuss features and elements of MongoDB Charts.

B. Discuss the Line and Area Charts in MongoDB.

C. Explain the use of Geospatial Charts.

April - June 2022

P42A1UML Unified Modeling Language

Time: 3 Hours] **[Total Marks: 60**

Instructions:

1. Figures to the right indicate full marks
2. Be precise and to the point in your answer

1. Answer the following: (ANY SIX OUT OF EIGHT) **(30)**

A. Discuss SDLC in brief.

B. Discuss the five views (architecture) of a system with suitable diagram.

C. Explain association and realization with example.

D. Discuss aggregation and composition with suitable example

E. In context of class diagram explain visibility and multiplicity in the diagram.

F. What is interface? How it is rendered in UML give suitable example.

G. For a Library management system, Draw sequence diagram for the use case " login" and "issue book".

H. Explain sequential and conditional flow in activity diagram.

2. Answer the following: (ANY 1) **(06)**

A. List down the building block of UML, and explain any one of the building block in brief.

B. What do you mean by common mechanism? Discuss extensibility mechanism with suitable example.

3. Answer the following: (ANY 1) **(08)**

A. Describe the various relationships in UML. How could you model the association and generalization relationship?

B. What is a relationship? Define dependency. Explain the stereotypes used in dependency.

4. Answer the following: (ANY 1) **(08)**

A. Identify various possible classes, attributes and relationships for Bank Management System and draw the class diagram.

B. What is package? Explain visibility and importing and exporting of package.

5. Answer the following: (ANY 1) **(08)**

A. In the context of activity diagram explain following

1. Forking and joining
2. Swimlane

B. Draw the use case diagram for online railway reservation. Explain <<include>> and <<extends>> stereotype used in use case diagram.

P42A3AT2 - Advance Technology – II (.Net)

Time: 3 Hours] April - June 2022 [Total Marks: 60

Instructions:

1. Figures to the right indicate full marks
2. Be precise and to the point in your answer

Q-1. Answer the following: (Any Six) **(30)**

I. Explain MVC pattern in detail.

II. How to send a data from action method to view? Explain in brief.

III. Explain razor code expressions.

IV. Explain data context class in detail.

V. Explain following attributes which impacts on the schema of the database.
1. Table 2. Column 3. Foreign Key

VI. How WEBAPI Routing config work?

VII. Explain ActionResult type in brief.

VIII. What is use of WEBAPI? Explain benefit of WEBAPI.

Q-2. Answer the following: (Any Two) **(10)**

I. Explain types of view in detail.

II. Explain Helper method in detail.

III. What is view engine? Write down difference between razor view engine and web form view engine.

Q3. Answer the following: (Any One) **(06)**

I. Create a model for student with at least six properties.

II. Explain code first and database first approach in detail.

Q-4. Answer the following: (Any one) **(06)**

I Explain model binding technique in detail.

II What is filter? Explain any two filters in detail.

Q5. Answer the following: (Any Two) **(08)**

I Explain HTTP verbs in detail.

II How to return JSON data from WEBAPI controller? Explain using example.

III How to Consume WEBAPI using JQUERY.ajax()? Explain using example.

April - June 2022

P42A3JP2: Java Programming Techniques -II

Time: 3 Hours] **[Total Marks: 60**

Instructions:

1. Figures to the right indicate full marks
2. Be precise and to the point in your answer

1. Answer the following: (ANY SIX OUT OF EIGHT) **(30)**

A. Explain methods of HTTPServlet class

B. What is JSP? Write down advantages of Servlet.

C. What is navigation in JSF? Explain any one.

D. What is hibernate? Write down advantages of it

E. Write a servlet program which show the use of handling POST request

F. Write down the difference between CGI and Servlet.

G. Write a short note on implicit objects in JSP.

H. Write a short note on hibernate query language.

2. Answer the following: (ANY 1) **(5)**

A. List out session tracking techniques. Differentiate session tracking with cookie and using HttpSession with an example.

B. Which interface is used to include the content of another resource? Explain in detail

3. Answer the following: (ANY 1) **(7)**

A. Explain different phases of JSF life cycle.

B. List out different types of events in JSF. Explain any one in detail.

4. Answer the following: (ANY 1) **(10)**

A. Discuss standard validations in JSF in detail.

B. Explain in detail the standard action tags in JSP.

5. Answer the following: (ANY 1) **(8)**

A. Write a hibernate program for insert/update/delete/display operation.

B. Explain architecture of Hibernate
