M.C.A. SEMESTER-V EXAMINATION

P15A4UML: OBJECT ORIENTED ANALYSIS AND DESIGN WITH UML

Time: 3 Hours] **Remedial April- June 2018** **[Total Marks: 60**

Instructions:

1. Figures to the right indicate full marks
2. Each section should be written in a separate answer book
3. Be precise and to the point in your answer

SECTION-I

1. Answer the following **(08)**

(a) Explain Generalization relationship with suitable example.

(b) Explain different adornments of Association relationship.

(d) What is root and leaf class?

(d) Explain importing and exporting in the context of package.

2. Answer the following.(Any two) **(11)**

(a) Explain 4 types of things exist in UML.

(b) Explain Software Development Life cycle in UML.

(c) Explain how to draw a class diagram for a system with its common uses.

3. Answer the following.(Any two) **(11)**

(a) Discuss in detail the architecture of UML

(b) Explain dependency relationship with the stereotypes that can be applied to class diagram and usecase diagram

(c) Explain Relationships exist in UML with suitable example.

SECTION-II

4. **Answer the following.** **(08)**

   (a) Explain Actor and Usecase.

   (b) Explain Forking and Joining.

   (c) Explain Artifact and Node.

   (d) How relationship of an interface and a class can be shown in UML?

5. **Answer the following:(Any Two)** **(11)**

   (a) Explain Usecase diagram with suitable example.

   (b) Explain activity diagram with suitable example.

   (c) Explain the types of Artifact in detail and also discuss how to draw artifact diagram with suitable example.

6. **Answer the following:(Any Two)** **(11)**

   (a) Explain sequence diagram in detail. Draw sequence diagram for online purchasing system.

   (b) Explain Deployment diagram with suitable example. Also Explain the common uses of deployment diagram.

   (c) State the similarity and Difference of the following

      (1) Class and component

      (2) Node and Artifact

M.C.A. SEMESTER-V EXAMINATION

P15A3NSQL - NOSQL WITH JAVASCRIPT

Time: 3 Hours] **Remedial April- June 2018** **[Total Marks: 60**

Instructions:

1. Figures to the right indicate full marks
2. Each section should be written in a separate answer book
3. Be precise and to the point in your answer

SECTION-I

1. Answer the following **(08)**

(1) Explain 'onkeydown' event in javascript with example.
(2) Explain toFixed() method with example.
(3) Explain random(), round() methods of Math object with example.
(4) Explain "For In" Loop in javascript with example.

2. Answer the following (ANY TWO) **(11)**

(1) Explain Array object with properties and methods with example.
(2) Explain three kind of Popup boxes with example.
(3) Explain getElementById() and getElementsByClassName() methods with example.

3. Answer the following (ANY TWO) **(11)**

(1) Explain Window object with properties and methods with example.
(2) Explain String object with properties and methods with example.
(3) How can we change html elements? Explain it by following.
element.attribute
element.style.property

(P.T.O)

SECTION-II

4. Answer the following **(08)**

(1) Explain ensureIndex() method with use, syntax and examples.
(2) Explain Limit() method with use, syntax and examples.
(3) Explain Save() method with use, syntax and example.
(4) Explain command to create and drop MongoDB Collection.

5. Answer the following (ANY TWO) **(11)**

(1) Explain following conditional operations with their use, syntax and examples.
- Less Than
- Less Than Equals
- Not Equals

(2) What is Projection? How can we display data of some specific fields using find() method? Explain with proper example.
(3) Explain $sum and $avg expressions of aggregate() Method with use and examples.

6. Answer the following (ANY TWO) **(11)**

(1) What is MongoDB? Explain Collection, Document and Field with proper example.
(2) What is ObjectId? Explain it with proper example.
(3) Explain Insert Document and Delete Document with example.

M.C.A SEM -V EXAMINATION (CBCS)

P15A2AAD ANDROID APPLICATION DEVELOPMENT

Time: 3 Hours] **Remedial April- June 2018** [Total Marks: 60

Instructions:

1. **Figures to the right indicate full marks.**
2. **Each section should be written in a separate answer book.**
3. **Be precise and to the point in your answer.**

SECTION – I

Q – 1 Answer the following. **(08)**

1. Draw an Android architecture.

2. Difference: MultiAutoCompleteTextView and AutoCompleteTextView.

Q – 2 Answer the following. (Any TWO) **(11)**

1. What is Activity? Discuss all the events of android activity life cycle.

2. Give example of Options and Context menu in your activity.

3. Explain all data driven containers.

Q – 3 Answer the following. (Any TWO) **(11)**

1. How to draw different shapes? Explain with suitable example.

2. Elaborate: Progress bar, Seek bar and Rating bar.

3. What is Dialog box? List out types and Explain any one.

SECTION – II

Q – 4 Answer the following. **(08)**

1. How to send data from one activity to another activity? Explain.

2. What is permission? Explain its types with suitable example.

Q – 5 Answer the following. (Any TWO) **(11)**

1. Describe: Content Provider

2. What is WebView? Explain all ways to browse data from WebView.

3. Write a short note on Android NDK.

Q – 6 Answer the following. (Any TWO) **(11)**

1. Write a code to perform CRUD operation on table Exam (Exam_no, Paper_Code, Paper_Name, Total_marks, Passing_Marks)

2. How to read and write a data in/from file in android? Explain.

3. How can you send / receive SMS from your application? Explain.

M.C.A. SEM-V EXAMINATION (CBCS)

ELECTIVE - VI: P15A1ADMS: ADVANCE DATABASE MANAGEMENT SYSTEM

Time: 3 Hours] **Remedial April- June 2018** **[Total Marks: 60**

Instructions:

1. **Figures to the right indicate full marks**
2. **Each section should be written in a separate answer book**
3. **Be precise and to the point in your answer**

SECTION-I

1. Answer the following: **(8)**

(i) What is Normal Forms? List out the Normal Forms.

(ii) What is Decomposition? Explain in brief.

(iii) Define term : Clustering,Indexing

(iv) What is Physical Database Design? Explain in brief.

2. (A) Answer the following: (Any Two) **(10)**

(i) Write as short on Functional Dependency.

(ii) Explain the Fifth Normal Form in Details.

(iii) Explain Choices in Tuning the Conceptual Schema.

(B) What is Database Workloads? **(1)**

3. (A) Answer the following: (Any Two) **(10)**

(i) Draw the Architectures for Parallel Databases and explain it.

(ii) Explain the Distributed Concurrency control.

(iii) Write a short note on Distributed Recovery.

(B) What is a deadlock? Give an example. **(1)**

SECTION-II

4. **Answer the following:** (8)

   (i) Give the difference between SQL and PL/SQL

   (ii) Explain the Data Type of PL/SQL in brief.

   (iii) What is cursor? List out the attributes of cursor.

   (iv) List out built in Exception handling.

5. (A) **Answer the following: (Any Two)** (10)

   (i) Explain Explicit Cursor with suitable example.

   (ii) What is Error Handling? Explain types of Error Handling in PL/SQL.

   (iii) Explain The Generic PL/SQL Block structure with example.

   (B) Define term: Save point and Rollback. (1)

6. (A) **Answer the following: (Any Two)** (10)

   (i) What is a trigger? Explain trigger with suitable example.

   (ii) What is a Package? Explain Package with example.

   (iii) What is Procedure? Explain Procedure in detail with example.

   (B) What is SQL Transaction? (1)
